

Hand Pallet Truck has elegant appearance with a streamlined shape. The whole cutting and stamping for the forks and the triangular panel, the automatic welding technology makes the overall intensity of the chassis higher and surface stronger.

- ▶ The integral-type pump body contains hydraulic circuit and hydraulic oil tank, which ensures the entire hydraulic system completely sealed and solves the common problem of oil leaking.
- ▶ Turning point is equipped with oil-free self lubricating bearings and injection nozzles, it can reduce noise and prolong the truck's life.
- ▶ Nylon guide wheel can save the operator's pushing power and protect the loading wheels.
- ▶ Conforms to EN ISO3691-5:2009
